

GAVETEIRO VC C/ GA/BAS – DISPONÍVEL SÓ P/ STRIPE E SLATTED

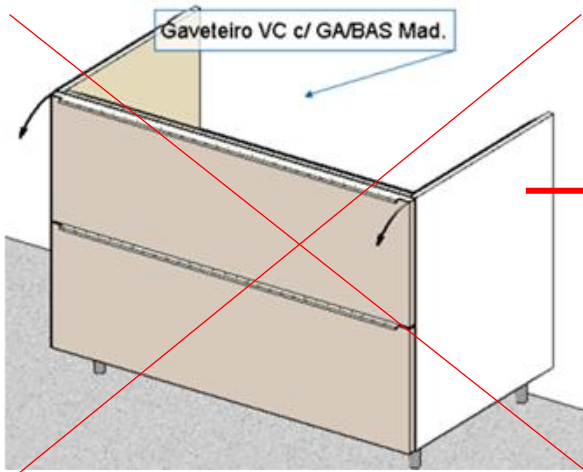

CI – 04/09/25

Prezados,

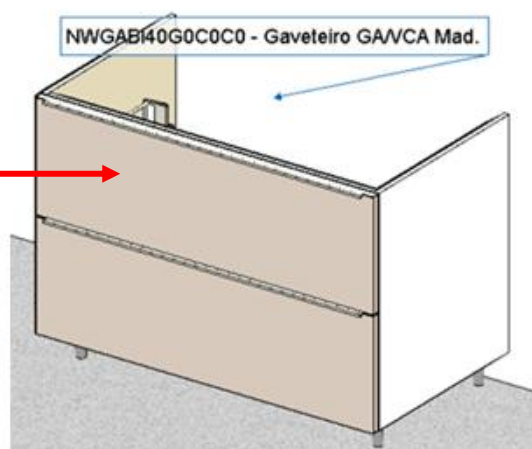

Informamos que o **módulo VC c/ GA/BAS foi descontinuado** para todas as linhas com caixa Essential, pois a gaveta prejudica a abertura do basculante invertido. Por isso, pedimos que não incluam esse módulo nos projetos, ou que substituam pelo módulo Gaveteiro GA/VCA. **Para módulos com caixa Stripe (linha Stripe e Slatted) será possível utilizá-lo** sem problemas, pois há um distanciamento entre a porta e a gaveta, por conta do perfil.

O módulo Gaveteiro VC BAS permanecerá em linha e pode ser utilizado normalmente para todas as linhas.

HD FOR SINK / LIFT DOWN DRAWER – AVAILABLE ONLY FOR STRIPE/SLATTED CI – 04/SEP/25

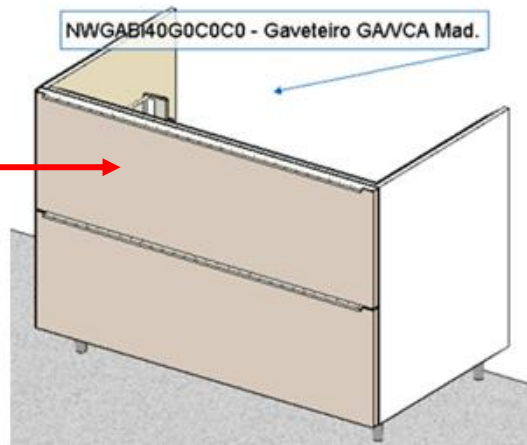

Dear all,

Please be advised that the **“HD for sink / lift down wood drawer”** has been discontinued to all lines with Essential box, because the drawer impairs the opening of the lift down door. Therefore, we ask that you do not include this module in the projects or replace it with the “Drawer HD/HVV Wood”. **For modules with the Stripe box (Stripe and Slatted line) it will be possible to use it** without problems, as there is a distance between the door and the drawer, due to the profile. The “Drawer VC BAS Wood” is still available and can be used normally in all collections.

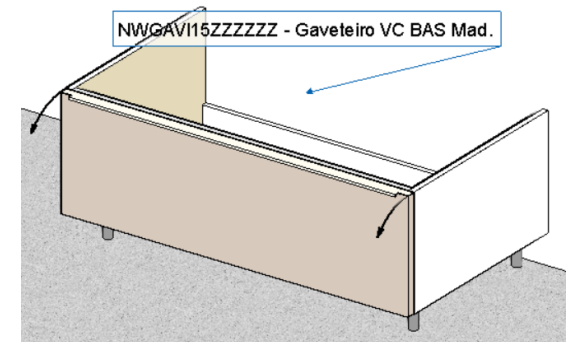

DISCONTINUED

SUGGESTED SUBSTITUTION

STILL AVAILABLE
